

Platte County Health Department

Serving Platte County Missouri

BTS Immunization Clinic

Dear Parent/Guardian,

Keeping your student immunized is important to your child's health and each year the Platte County Health Department provides hundreds of immunizations to students from all over Platte County.

The Platte County Health Department is partnering with local organizations to provide all required and recommended immunizations for students entering 8th and 12th grades during Back to School Season.

The vaccines being offered are:

- [Meningococcal ACWY \(Meningitis\)](#)
- [Tdap \(Tetanus, Diphtheria, and Pertussis\)](#)
- [Human Papillomavirus \(HPV\)](#)
- [Hepatitis A](#)
- [Meningococcal B \(Meningitis\)](#)

If you would like your student to receive any of these vaccines, please complete the [Registration Consent & Screening Form](#). Once they are completed, please email them to client@plattehealth.com. Our clerical staff will contact you to schedule an appointment during our vaccination clinics. Students who qualify for the clinic are those who are uninsured, underinsured (you have insurance but they do not cover vaccines), have Medicaid, or are Native American/Native Alaskan. If you have any further questions, visit our immunization section on our website [here](#). Please encourage your child to eat and be hydrated prior to the clinic. Ensure an updated copy of your child's immunization record is on file.

Thank you for allowing the Platte County Health Department to be a partner in your child's health. If you have any questions, please feel free to contact us.

Sincerely,

Dustin Guest RN, BSN
Immunization Coordinator
